

## **Nomination Bios:**

### **Derrick Boyd:**

My name is Derrick Boyd, and I have had the privilege of serving on the board of directors since 2021. I am requesting your support for my re-election. The safety and well-being of our residents in RCR have always been a priority. During my term, I have actively advocated for improvements related to the opening and closing of the community gates. I also spearheaded the proposal for speed bumps and oversaw the process of their placement and installation. Additionally, recognizing concerns about algae buildup in our pond, I worked to secure a contract for its cleanup. As a liaison for the Architectural Control Committee, I ensure that the bylaws are followed for all new construction, as well as any additional projects or add-ons within our community. Landscaping maintenance has been another area of focus, as many neighbors share concerns about the quality of work. I oversee the landscaping contract to guarantee that the company meets the high standards expected by our homeowners. It has been an honor to serve and support our wonderful community while fostering relationships with my fellow neighbors. I look forward to the opportunity to continue making a positive impact in the years ahead.

### **Heinz Schwarzkopf:**

Hello, I'm running for the board once again to make sure the standard homeowner always has a dog in the fight. I'm a born and raised Texan and I don't plan on leaving. I have conservative Texan ideals, which for this application, can be summarized as upholding peoples rights and blocking encroaching restrictions. One example of this is addressing the overzealous speed bumps that don't even allow a stroller through. I'm also a frugal investor so I want our resources to work for us and not be wasted. Additionally, I'm tough on upholding a fair environment and don't plan to have double standards for some neighbors. Life is dynamic and our neighborhood should be as well, lest we will still have the same deteriorating amenities for years to come.
